The importance of this institution appears from the following considerations:

1. It is enjoined on the disciples of Christ brance of me." 'The authority of Christ, as King in Zion, is absolute and supreme over his disciples. He is Lord over all things to his church. Of course every christian must be supposed to own Christ as his Lord and fears keep back those who express a hope that they are christians. But ought not those worthily. It seems to me that some who express great fears that they should not be accepted of Christ in the observance of his orguilt incurred by disobedience. To be conthe Savior for a good hope, or, they ought to examine themselves, be baptized and commemorate the dying love of their Savior .-But the authority of Christ is not such as to excite the terror of any but his enemies. It example of cheerful obedience to fulfil all righteousness as the Son of God. It is en-

"show forth" as the Apostle expresses it, charity to all men, is the mainspring—the Ghost in the apostles, and for which end trusted with the interests of his constituents; "the Lord's death until he come." The history of past events of great interest to mankind, is substantiated by certain memorials, in the world. The ordinance of the Lord's substantiated by certain memorials, supper brings christians into close and hapsuch as standing monuments, the observance of certain days, and feasts. These could places in Christ Jesus. They unite as one history. And by being visible, sensible representations of the event in question, they strike the mind with a peculiar force and make a fresh impression on the memory.—
Thus the truth of Christianity is confirmed Baptism is "a solemn and beautiful emblem" both of the death and resurrection of Christ, and a public badge of our profession as his of the centage of the profession as part of the power and applic badge of our profession as his of the event in question, they seemed and then yeart, with all her tenderness, they had not name and thing, that was high and aloft, there arose from the name of this of fice the meteor of an arch deacon, with all her tenderness, are despotism duelists and nature, with all her tenderness, are they shall one day meet with all the redeemed of the Lord in his strange power and authority never heard of in the church for many ages. In confirmation of this opin-ion, I am most happy to say, that the con-duct of our brethren, in their late painful trials, so far as I have heard from them, has been highly exemplary. Humility, patience, and forbearance, and a devotional reference of every event to the wise guidance of their Heavenly Father's hand, have marked their

behavior on every occasion.

Brethren Wickliffe and O-ga-na-ya, and a great number of members of the church at Towns, fell into Fort Butler, seven miles from the mission. They never relax-ed their evangelical labors, but preached constantly in the fort. We had no difficulty in finding them. They all agreed to come in, on our advice and surrendered themselves to the forces the United States; though, with the whol nation, they are still as strenuously opposed to the treaty as ever. MR. EDITOR :- For the sake of informaion, I wish to propose, through the medium of your paper, a few inquiries respecting church discipline. Long before Aspasio's admission into the school, he had been the subject of deep convictions of sin; but they gradually wore away, and when he became a scholar, and entered the second class of the boys' school, he was perhaps as careless about his soul as any one of his school-fellows. Because of the house of the Lord I will seek thy good. Fearing lest any should think he was too zealous in the cause he was advocating, he entered fully into the subject, and brought forward a long catalogue of the benefits which Sunday Schools have conferred on society and on immortal souls, all was illustrated and confirmed by a selection of well authenticated anecdotes

OUGHT THE PERSONAL CHARACTER OF A CAN-DIDATE FOR OFFICE TO BE REGARDED ?

The convention which nominated for Governor, in their address to the good citizens of Pennsylvania in favor of his election, used the following language:

Week after week brings to light new evidences of fraud and infamy, and the people, by thousands, are turning away from his support in disgust.

Suddenly, the tone is changed. Finding that the "private life" of their candidate will not pass inspection, they now say that his private life concerns him alone; is no matter to us;" "his party standing is what we look to." &c &c Even the Wv. oming Republican, (which, we think, has published with approbation and applause, both of the addresses referred to,) finds it convenient to declare-

After the boat had left Richmond, Henry came out and was brought from his hiding place, and it being ascertained that he was a runaway slave, he was locked up in a small room in the boat. a very brilliant production—full of lofty thought and philosophical reasoning. It was, perhaps, a little too florid and wordy, but notwithstanding, it must be pronounced a splended composition. In his exordium, he very happily illustrated the benign influence which would flow from connections like the one then existing between himself, a citizen of a distant State, and a literary institution in Massachusetts-it would serve to strengthen the bond of union and fellowship between the States, which is so necessary to the perpetuity of our free institutions. then most beautifully draw a parallel between the first settlers at Jamestown, and the Plymouth pilgrims. He dwelt particularly upon the duties of the educated young men of America, in consequence of the peculiar po-sition of their country. was very eloquent.

The address of the Rev. Mr. Barnes of was to exhibit the importance of the choice of a profession; and the subject was treated in a masterly manner. The work was broadly and fully laid out, and nothing left unfinished. It was complete as a whole, and complete in its parts. The author did not electrify his audience with brilliant sallies of wit or lofty flights of the imagination, but treated them with rich and profound thought, presented in such a manner, that it came home to the very soul. He had a work to do, and his chief object seemed to be to perform it in a manner calculated to produce the best possible results.

The exercises on commencement day are very highly spoken of, as being alike erable to the performers, and to their dis-tinguished Alma-Mater. The following was the order of performance :-

SORROWS OF A TEACHER.

While endeavouring, with great serious ness to impress the truth on the mind of the class, some of them have no more manners than to be talking among themselves. This grieves him to the heart.

To go before a class, feeling an insupportable desire for the salvation of their souls, and find some of them endeavouring to make light of all his instructions, and to cavil or find tault with truth.

To visit the parents of his pupils, and be coldly received, as though he were meddling with what does not belong to him. To visit them, and discover that they feel no concern for the salvation of their children, and that hey counteract his influence during the week. To find them well disposed, and yet they afford him no opportunity to converse privately and pray with his children. To discover some seriousness in a scholar,

and afterwards to learn that the parents have taken him out of school, because the teacher frightens him, and he comes home crying.-[Such a case occurred in a school which we were once connected; and yet the parents were members of christian Church!]

To labor diligently in preparation and find that his class have not looked at their

To labor and pray earnestly and faithfully, and yet see no fruit-to find the most sol emn truths falling upon the ear of the chil-dren like a story or a song. This is a trial, which is perhaps often necessary to make the teacher feel his dependence upon the Holy Spirit. But, such a teacher need not "sorrow as those that have no hope;" for he has the blessed assurance, that "he goeth forth and weepeth, bearing precious seed, shall doubtless come again rejoiceing, bringing his sheaves with him."—Youth's
